Ad. in the Alice Free Press says, "When you want free pens pads your harness shop has them in stock but there's lots of blotting paper in the office we should swear."

One of Queen Marie's fascinating articles contains twelve paragraphs—ten of them by Marcus Aurelius.

A sceptic claims to have discovered the secret of long life. Wouldn't he be surprised if not dying too soon has something to do with it?

Front elevation proposed hotel to be erected in New York. The roof will be flat, with many hanging gardens of Babylon and a planter feature of course is greatly reduced, but we are sure the rates will not be.

A clerical gentleman says women today have lost the ability to blush. But why should a girl buy rouge and then do her own blushing?

"Poetry is the music and flowers of literature," we're told. And, of course, Shakespeare's poem goes on.

According to the news, falls now always suffer in health because they don't walk enough. "Think we'll buy a driving seat and take a stroll in Calgary."

Community singing helps us to realize how few of us know any of the songs we all know.

A London restaurant dresses its waiters in tuxedos. They are to be a danger signal warning of its "unprovoked and unawful charges," as King Edward says.

Alma McPherson says there's lots of pre-war whiskey in Los Angeles. So probably there isn't a drop there.

Modern woman has more trouble than her forbears, a London reporter says. Most make her feel kinda consciousness when she's in evening dress.

Now may have fished while home burning, but what about all the guys who play the saxophone without protection?

Special and exclusive photographic of the palatial estate which Mayor Blythford had at the Y.M.C.A. building, his home in that city. He carried him in a sample of Alberta coal put up in a special pocket flask.

A health expert warns women against wearing stockings as necessary as to tell them not to sleep on the railroads.

A NEW ENCYCLOPEDIA
111—Milton

He wrote a sonnet and we still have it in our library. Its music and its wondrous imagery. Undimmed in fame.

What is it? Well, it's hundred years. Those glorious words that oft he death.

Without a doubt.

She'll live so long as Time's dear.

What is he poem all about.

You ask. Gosh! nobody knows.

BALLET HOPSCHOPE

This is a good day to recover from the recent holiday. We've had some muddy roads when snow starts again, but on your birthday you're going to get lots of other folks.

HOUSEHOLD HINTS

Pineapples are best when picked green from the pine trees. Snow may be removed from the roof by a ladder or it carefully with a hot iron.

COUNCIL WILL CARRY OUT SUBWAY PLAN

No Vote
Will Be
Needed

Two East End and Two
South Side Aldermen
Object

The last of the big building schemes foisted by Mayor K. A. Blythford became a reality Tuesday night when the city council by a vote of six to four decided to go ahead with the 10½ mile subway under the Canadian National Railway tracks and not take it back to a vote of the burgesses.

"This is the last one of the mayor's projects and he is leaving us soon so let's not waste time," said Ald. Robert, and all but Alderman Werner, Giblin, Sloane and Kellor felt the same way about it.

It had been agreed for some sort of a way across the tracks, the Bay company had offered to give \$25,000,000, and gone along with projects hinging on the subway. Alderman Kellor, however, pointed out that the people wanted it and it would be a big asset to the city and the burgesses were distressed by giving later.

"I am in favor of a city with a city with no crossing for 16 blocks," said the mayor, called for a vote and carried.

**WOULD LIMIT
ALIEN FILMS**

Canadian Press

LONDON, Nov. 10.—The economic situation in Great Britain makes it necessary to take some steps, say, could be taken to limit the use of alien films in British movie theatres. A particular case in point is the enormous amount of American films shown here.

One method suggested of dealing with the matter is to place a quota on the number of alien pictures to be shown. Another suggestion was to agree to drink a quart of milk if Princeton defeated Harvard in the football game.

Mr. Blythford is in the lead as the rest of the world is dead.

**FARM WORKERS
ONLY INVITED**

Canadian Press

LONDON, Nov. 10.—With the new agreement between the Canadian and British governments and companies for the continuance of the emigration of the surplus population from Great Britain to Canada it is not likely that any radical change will be made in the arrangements of the emigrants coming under the scheme.

The existing arrangement which will expire at the end of this year, is intended to give preference to young men, married or single, in finding farm workers and domestic servants. The Canadian government has been asked that these should be limited to the scope of the arrangement and that the classes of industrial workers, but not the rest of the emigrants, be given preference.

**Winter Express Rates
On Fruits and Vegetables**

Canadian Press

OTTAWA, Nov. 10.—The cabinet under the direction of the Hon. J. A. Murray, Minister of Railways, has decided to postpone the opening of the winter express rates on fruits and vegetables from British Columbia to Ontario until January 1, 1922, or possibly on Dec. 25, 1921, according to word of the minister.

HORSE FOR CHARITY

NEW YORK, Nov. 10.—The summer "commodities" rates on the sum-

mer stocks in North America will be represented by the Canadian and Canadian Pacific Express companies.

Under the arrangement, the rates will be 25 per cent over the summer schedule, according to word of the minister.

Mr. W. H. Williams, of the Canadian Board of Trade, the tariffs are now being prepared.

**NO WORK FOR
MINERS HERE**

Canadian Press

OTTAWA, Nov. 10.—Those interested which advocate extensive development of the mineral resources of Canada should first find the work which is said to be abundant. Wage rates are to be determined by the miners themselves.

The miners here under guard of the police apparently suffering from poisoning.

Mr. Blythford was found dead and his mother, Mrs. Queenie Blythford, had his home nearby when the discovery and returned afterwards to the scene of the accident.

He was given an antidote by a physician. A coroner's jury ordered his arrest.

This was the reply made yesterday by President Tom Ross, of the Canadian Labor Congress, to an editorial in the Morning Star which advocated a strike.

Maye What He's Waiting For.

When the police fail, try publicity. Perhaps Government would come out of the woods if the vendors' people hung up an attractive-looking contract and the newspapers offered him a sympathetic arrangement for the inside story of that Camel episode.

The Old Reliable.

The Duncans report on ways to quell the clamor in the Maritime provinces is said to consist mainly in proposals to take their grants from the federal treasury, but more sharply than that is coming to the Maritimers, and perhaps that is what they have been agitating for and have been too modest to put into words. But it does seem that whenever a soreness develops in any part of the Dominion there is only one kind of treatment that can relieve the inflammation—a liberal application of federal skin-plasters.

Good Advice, But—

Some papers are recalling that the McKenzie King Government is pledged to further tax reduction, and are appealing to the public to help the cause along by refraining from demands for public works.

The appeal is sane and timely, but that it will succeed is not to be doubted. When McKen-
zie wants a man in office, it is his way that will usually get it or try to ruin somebody's political career at the ensuing election. In that respect the question is not whether the world has been made safe for democracy, but whether democracy is safe for its own pocket book.

If that outlet is to be kept down, and taxation thus reduced, it is the duty of the public to keep the lid of the money-box, refuse to build breakwaters in mill ponds, and tell ambitious hamlets to forget their cut and dried programs for federal expenditure. If Parliament does not do that, through fear of the voters, what is the use expecting the voters to put brakes on their own demands?

Thinking of Pockets, Not Morals.

Canadian magazine publishers ask that U. S. periodicals entering Canada be subject to a tax of ten cents per pound on their gross weight or a tax of fifteen cents per pound on the advertising sections of them.

Prominent among the arguments used to support this proposal is the fact that most of these periodicals are not fit to read, and a still larger proportion see no further border line of usefulness as to make distinction difficult.

As a statement of fact that is not to be questioned, but the statement of fact has nothing to do with the argument for a tariff.

A magazine that is not fit to read should not be allowed into the country at any price. And it is not fit to read because it is a tax on the consumer need to be imposed to be appreciated.

Do You Remember?

FORTY YEARS AGO

From the Edmonton Bulletin, Saturday, November 10, 1886.

Rev. Mr. Brick and Messrs. Lawrence, Minnie, Tom and Walter arrived from Peace River on Saturday, after a long and fatiguing trip. The latter went out from here last spring and spent the summer in occupying a position of prominence in the old world. But it is a question whether those present will be of the same opinion when he thinks back on the freedom he enjoyed in Western Europe.

The offer of the honors of heredity, however, and the two much for the gentlemen from Lethbridge, seems to have the honors of an old country? This is a question which it is up to Mr. Waller to decide.

The prince, and the satisfactions of life in the two spiritual, radically different, and it is quite possible who one who has trained himself to one kind of life can adapt himself to the other.

A CURE FOR PARALYSIS

Remember the simple rules I am giving you in this article, and your knowledge may be the means of bringing about a quick cure of a paralysis which may occur to some loved one in the future.

The immediate cause of most attacks of paralysis is a blood clot on the brain, due to the rupture of a blood vessel, and in injury to the brain from a blow. A cure will depend upon the absorption of the blood clot as soon as possible.

The first rule one should be kept warm and hot towels applied to the spine every half hour. No food of any kind should be given until the absorption of the blood clot has been completed. If no food is given to the stunned body the thinned blood stream will slowly take away the blood clot which is pressing on the vital nerve centers in the brain.

Keep up the fast for one week or even longer if necessary. Every morsel of food taken at this time will interfere with the cure: nourishment taken in the form of enemas will even produce more harm and create a greater amount of toxemia. A two or three week fast will accomplish most at the start than the next two or three years of treatment by any other method.

In the event that paralysis has occurred a long time ago the same treatment as for the first attack should be followed. The best form of treatment is a positive form of embolism.

It should be entirely relieved, as the absorption of the old blood clot will be greatly relieved.

Physical therapy treatment should then be given to encourage development of muscular power in the paralyzed limb.

High blood pressure is usually present with hardening of the arteries. It should be lowered by the use of cold water on the walls of the arteries. All grain foods should be strictly prohibited, as well as all forms of starch and minerals.

It is well to give the patient a diet of fruit juice, and at least one meal of only orange or grapefruit juice should be taken to re-educate that deadened muscle.

Constipation must be overcome or daily enemas taken to insure a free

Daily massage of the entire body is of great value.

While these methods of treatment are being used to restore the body to normal, every care must be taken to prevent a recurrence of the

attack. The blood pressure must be reduced to the normal with dietary measures, and by the exercise of the mind, music, which will develop a tranquil poise of the mind.

Self control must be developed and temperate habits formed to avoid another more serious attack.

Sun Shines in Brussels For Wedding of Astrid

Avenues of Belgium's Capital
Thronged With Concours
Of Citizens

B RUSSELS, Nov. 10.—(By Canadian Press)—A British Broadcasting Company says the wedding of Prince and Princess Astrid of Belgium was great success. No fatalities were reported, but many persons were slightly injured or treated for their injuries in nearby streets.

It was a complete demonstration to occur in Brussels since Armistice Day.

Today's religious ceremony followed the civil wedding performed at the church of St. Gudule on Sunday.

The bride, Miss Astrid, who walked rather awkwardly up the main aisle of the cathedral, will, in the opinion of the press, rule over Belgium while the little couple are young.

Sun Shines Brightly

But today the weather was fine. In the broad, sunlit streets and avenues of Brussels, they are similarly lined with the heads of kings, royal families and nobles, from duke to baron, passed almost unnoticed by the crowd.

Fifteen thousand soldiers were lined up under the command of a thousand officers, and countless flags decorated the way.

**Local Pussy Cats
Will Go to Calgary**

For November Show

C AT fancies of Edmonton are planning to send down exhibits to the show of the Calgary Cat Club. The exhibition will be held on Nov. 12, 13 and 14 at the E. N. Barker of Lethbridge

and 17th Street.

When salt becomes damp in rainy weather, pull it out for a few minutes.

Experienced travellers in all countries always take a bottle of ENO to offset changes of water and diet. It is a commendable custom and prevents much sickness and discomfort.

Women Not Efficient As Broadcasters, Says Radio Company

LONDON, Nov. 10.—(By Canadian Press)—A British Broadcasting Company says women are not efficient as radio announcers because they are temperamentally less able to withstand physical strain imposed upon them by the work.

Women's organizations in England protested. The leaden, cold, and lifeless tone is preposterous to speak of as being due to physical strain. Surely it is not as great a physical strain to speak into a microphone as it is to give a speech in Government House.

Mr. and Mrs. Norman Engleman arrived home from Westgate on the sea last week, after spending the past week in the company of the guests of Mr. and Mrs. V. C. French over the radio station.

Mr. George V. Vasey, who has been a guest at the Macdonald Hotel for the past week, left on Tuesday evening for a vacation in California.

After pleasant visits, and Miss Eleanor Griffiths, who spent the holiday with their parents in California, have now returned to continue their courses at the University.

John McMichael, formerly of Edmonton, has arrived recently from his home in China from Oxford, England. He is a student of the University of Alberta Alumni Association at the week end on the "Old Homecoming" at the University.

It was announced that the 1927 meeting of the Knights Templar to be held at the University of Alberta will take place on Friday afternoon at the home of Mrs. John McMichael, 118, Mrs. F. S. McMichael, 118, Mrs. J. A. McMichael, 118, Mrs. G. McMichael, 118, Mrs. W. McMichael, 118, Mrs. E. McMichael, 118, Mrs. D. McMichael, 118, Mrs. C. McMichael, 118, Mrs. B. McMichael, 118, Mrs. A. —An Open Mind!

Toward the possibilities for personal advantage issuing from the achievements of modern research and progressive organization.

Several years have passed since the La Fleche Tailoring Organization first set themselves to the task of placing within the reach of every man in the Province of Alberta the enjoyment of the beauty and comfort of high-class individually tailored custom clothes with the genuine economy of their longer service.

Three years of planning and research were devoted to the problem --- touching on every angle of the business of men's clothes, from the importing of fine woolens direct from the primary mill source to the tailoring and distribution directly and individually for and to the wearer. The NEW-WESTCRAFT "PRE-TRY-ON" system is the final answer. Its advantages over the old established ready-made way furnish some startling comparisons.

"PRE-TRY-ON" is no mere incident in tailoring---it is a revolution in the way for men to buy clothes. Pre-Try-On is greater than even we ourselves knew.

Your Winter Overcoat

False Propaganda

With a new system of tailoring, introducing advantages of so sweeping and far reaching proportions, an attempt to discredit it was to be expected. In the meantime PRE-TRY-ON is forging ahead at a tremendous rate. PRE-TRY-ON Westcraft Custom Clothes are themselves the final proof.

Your most immediate clothes problem is probably a new Winter Overcoat. In its selection and purchase keep your mind open to this outstanding fact, viz., that high class tailoring individuality is just as important in your overcoat as in your suit—even more so.

PRE-TRY-ON has something more to place before you than mere price inducement---differing widely in this respect from the numerous price reduction sales of overcoats. You can buy overcoats for less, but what a drop in quality the lower price imposes!

With Winter already here the qualities you want in your overcoat become more clearly defined. PRE-TRY-ON custom overcoats are built with a first-hand knowledge of the requirements of our Alberta Winter. Built for comfort—for appearance—for lasting service.
